

This is to certify that Victuals & Co.

has had a deep clean and sanitisation via UVL fogging with a Professional application of Formula 429 PLUS Antimicrobial.

This has been fogged into all areas and surfaces according to the N.H.S. protocols and guidelines set down for the successful trials carried out at St Barts. Hospital, London for treating any infection affected environments. The treatment has been verified by the use of evidence strips to ensure that all coverage is according to the CE standards of independent testing levels and clearance of chemical for safe re-entry which includes the elimination of viruses, bacteria, moulds/mildew and yeasts. See list for details.

The product Formula 429 PLUS Antimicrobial is tested and approved to be effective for use in NHS infection control environments and is also tested to ensure that residual efficacy is active for at least 17 days to ensure that viruses, bacteria, mould, mildew etc. do not return. This independent testing was done at Manchester Royal Infirmary.

Applied by M. BRETT signed NOBROW

Date of Application 30/6/2020

Formula 429 PLUS kills / Destroys Bacteria *Streptococcus pyogenes* Leptospirosis *Yersinia enterocolitica* Black Plague Bacteria and yeasts *Hep.B* *Aspergillus brasiliensis* Black Fever *Candida albicans* Influenza *Saccharomyces cerevisiae* *Campylobacter jejuni* *Trichophyton interdigitale* *Clostridium Difficile* *Trichophyton mentagrophytes* *Corynebacterium jeikeium* *Trichophyton rubrum* *Escherichia coli* Viruses *Escherichia coli* 0157.H7 Feline Calicivirus (surrogate for Norovirus) *Enterococcus hirae* Herpes simplex Type 1 *Klebsiella pneumoniae* Influenza type A (H1N1—Swine Flue) *Listeria monocytogenes* Muribeb Norovirus (Surrogate for Norovirus) *Pseudomonas aeruginosa* Rotovirus *Salmonella typhimurium* This is not a complete list it is a guide to the *Staphylococcus aureus* types and variety of contamination destroyed *Staphylococcus aureus* (Methicillin resistant—MRSA) only. *Staphylococcus epidermidis* Effectiveness comparison.
